Planning application: 1 Whitehall Road, Harrow, HA1 3AL. Ref: P/5279/18

Dear Katie Parkins

The Harrow Hill Trust Planning Committee has considered this application and feel there is insufficient information on the materials and detailing for you to approve as it stands.

We believe that, in principle, it has some merit but currently the drawings show no diagonal bracing or brackets, bases to the posts, end panels, eaves and gutter detailing, etc.

There is potential for this to be poorly detailed and executed. The roof pitch should be the same as the house.

The structure will have significant impact on the street scene so it must be executed correctly. From the very limited outline we see from the drawings we have no confidence that this will be achieved.

Kind regards,

Dr Simon Less
