Planning application: P/2810/19 - Mount Pleasant, London Road

Dear Selina Hotwani

The Harrow Hill Trust Planning Committee has considered this application.

We consider this replacement to be of too utilitarian and “pared to the bone” to be acceptable for this listed building. It is not in keeping with the age of the building, and neither replicates the original design nor enhances the building.

We suggest that it should be reconsidered using cast iron components for the posts, balustrades, strings, steps, etc., or it should be designed to at least replicate that which is being replaced.

Kind regards,

Dr Simon Less

Chair, Harrow Hill Trust Planning Committee
