Planning application: P/0799/20 – Julian Way, Julian Hill

Dear Kimry Schlacter

The Harrow Hill Trust Planning Committee has considered this retrospective application.

We agree with the reasons for the refusal of the previous retrospective application P/4731/19: *“The existing replacement garage, by reason of its excessive depth and its inappropriate materials, results in a disproportionate and unsympathetic development which undermines the setting of the listed building and fails to preserve or enhance the character and appearance of the traditional, semirural character of the conservation area and area of special character.”*

We reiterate the comments in my letter of 19th December 2019 on the previous application, and we do not consider this further application demonstrates that the new garage is a like-for-like replacement. We note the comments in the objection from Pinewood House on the history of the site.

Kind regards,

Dr Simon Less

Chair, Harrow Hill Trust Planning Committee
