Planning application: P/0648/20 – Orley Farm School

Dear Shamal London

The Harrow Hill Trust Planning Committee has considered this application.

Orley Farm school are well aware of their responsibilities under the planning regime and it is disappointing that this shed was erected without going through the proper process for seeking prior planning permission.

This timber clad container is quite different to its predecessor, which according to the design, heritage and access statement was smaller, in timber with a pitched roof.

The new shed is an eyesore, big and ugly, close to the public road, and obscuring the pavilion which has significant merit. It should be relocated to a more sympathetic and concealed location, or not allowed at all.

Kind regards,

Dr Simon Less

Chair, Harrow Hill Trust Planning Committee
