RE: P/4691/20 90 High Street

Dear Campbell Grace

Our concerns about this development of an important building on the Hill is the increased space requirement for refuse and parking. The appearance of the refuse bin area could be detrimental to the visual amenity of the area. Also, the three bedroom flat has not used any of the central part of the roof space and, as a result, it lacks amenity space for a family.

Yours sincerely

Paul Catherall
