RE: Heathfield, Peterborough Road

Dear Mr Wiggan

We attach a photograph of a recent addition to the front garden of Heathfields. The property is a grade II listed building designed by Arnold Mitchell and built in 1892. It is also within the Roxborough Park and Grove Conservation Area. The conservation area specifically mentions the rural nature of the street scene.

“Public greenery contributes to this along all roads apart from Maxted Park. Roxborough Park, for example, has various intermittent evergreen trees lining the road whilst Peterborough Road and Grove Hill are bounded by dense trees. The informal and spacious character is also created along Grove Hill and Peterborough Road as buildings are set back and line only one side of the road.”

We know that it is one of the flats 2-7 Heathfield and not number 1 Heathfield which is the single dwelling House and that it is not numbers 2 or 4. We suggest that you may like to write to Heathfield Apartments Company Limited at the registered address 5 Heathfield, Peterborough Road, Harrow on the Hill HA1 3DZ care of one of the Directors Mrs S Thaker.

Thank you.
Yours sincerely

Paul Catherall
