RE: P/2596/21 Green Court, Orley Farm Road HA1 3PG

Dear Fergus Freeney

The improvement to the frontage is appreciated and we also have no issues with the rear elevation. The windows of the highly visible side elevation to the main building, as opposed to the extension, are fine in proportion and location, but should at least match the existing glazing pattern used for the main building. This would then match the glazing pattern used for the front elevation. We consider that the glazing in the extension, both rear and side elevations, can be distinct without compromising the main building structure. In responding to feedback from local residents, we also suggest that dense planting is used in place of the tall close boarded fencing.

Yours sincerely

Paul Catherall
