RE: P/3517/21 17 Georgian Way

The front and rear of the property borders Mount Park Estate Conservation Area and it is opposite two locally listed properties.

Stylistically this is not something we welcome. The front elevation would look better without the roof-lights. Massing wise, the two-storey side extension is dominant and not helped by the pastiche design requiring the large roof element. The rear dormer is at odds with the overall property.

There are truly landmark trees important to both adjacent conservation areas which need protecting.

Yours sincerely

Paul Catherall
