RE: P/4376/22 Dublin Court

22 February 2023

Dear Fergus Freeney

We believe that the proposed doubling of the number of dwellings in that location given the limited amenity space does not enhance the conservation area. It would put pressure on the quality of living of the residents, with cycle storage and bin storage space reducing outside recreational space. Also creating more households within the same space is likely to add pressure on nearby parking.

Yours sincerely

Paul Catherall
